

BIOGRAPHY

Pebble Theory emerges from the eclectic San Francisco scene to offer a music style firmly rooted in pre-subgenre rock. Passionate, intelligent and compelling, Pebble Theory provides a sound that is both thought provoking and truly enjoyable to listen to.

Eros Resmini (vocalist, rhythm guitar), Tim Pryde (lead guitar), Drew U'Ren (percussion) and Nick Massaro (bass) successfully adapt their diverse instrumental styles into a smooth transformation of past influence and individual musicianship.

Pebble Theory's 2nd Album Release, *Air EP*, offers a mature, inventive, and groove-enticing sound focused on a reflective and innovative compositional style. They support original music and musicians who persevere to actively pursue its continual growth.
